

CHANGEWORKS COMPLETES 10 YEARS!

ChangeWorks is 10 years old today! We started this organisation with the mission to facilitate individuals, groups and organisations realise their immense desire and potential for whatever they wish to be. We work with the values of authenticity, partnership and integrity with all our clients.

ChangeWorks has done more than 1037 assignments till date and impacted more than 20,000 professionals in the corporate and social sectors. We have done around 300 Million Indian Rupees of assignments over this 10 year period. We have done most of the assignments in India with some work done in other parts of the world as well.

You trusted us with our capabilities and our commitment and supported us by allowing us to consult with your organisation in various capacities. We exist and thrive today only because of your trust and support.

We all have changed from the time we started ChangeWorks... grown old definitely, also developed new skills, new perspectives and experiences. But I believe that the spirit/ essence of who we were and who we are today still remain the same.

As we celebrate 10 years of contribution towards our mission, we would like to remember your contributions to making this happen.

Thank You once again for being there and continuing to support us.

Best Regards,
Sharad, Wasundhara, Sankar
